**FELL FROM A ROOF AND DIED IMMEDIATELY**

Robert Manson a plumber, a Scotchman, was killed by falling from the roof of the girls' school at Kamehameha yesterday afternoon. He was inspecting the roof with the carpenter, when the accident happened. He had been shown where a couple of leaks were located and then walked across the roof to the other side of the building in search for others. He went alone and was discovered soon after, lying on the ground groaning.

Dr. Waterhouse was summoned and, on his examination of the man, it was found that he was totally unconscious. He breathed his last while the doctor was examining him. One of the foremen was broken just above the wrist. Undoubtedly there were internal injuries.

Deputy Sheriff Chillingworth summoned a coroner's jury and the body was viewed while it lay in the school yard. The Journeymen Plumbers' Association, of which the deceased was a member, took charge of the remains, which were taken to an undertaking establishment to be prepared for burial. The funeral will take place this afternoon. The remains will be taken to Pearl City.

Deceased was a native of Glasgow and had been here about nine months. He came here from Victoria and immediately went to work. A week or two previous to his death, he had been out of employment. The job he was called out of yesterday was the first he had obtained since his enforced idleness.

Manson was an unmarried man about 40 years of age. He leaves a sister, a Mrs. McDonald, now in Glasgow. Not much is known of the man's relatives.

**McKINLEY MEMORIAL**

The Oahu McKinley Memorial committee met yesterday afternoon in the offices of Henry Waterhouse & Co. There was a brief discussion on the plans for working but the committee decided that nothing could be done until there had been a plan for the memorial prepared and submitted. Rev. Alex. Mackintosh expressed himself in favor of a home for the aged. Miss Felker, principal at the Beretania school, was in favor of a children's hospital but she finally coincided with the idea that there was a greater demand for a playground or recreation park than for anything else.

The teachers present stated that there would be little difficulty in getting voluntary work or contributions from the children and their parents, once there was such an object as a playground or recreation park definitely decided on. It was the consensus of opinion that should be no waiting on other parts of the group to be heard from but that there should be a decision at once.

The contributions from the Japanese of Elele, Kauai, as reported yesterday, amount to \$24.75.

Exposure to wet, dampness and cold invariably results in a sudden chill, which if not attended to immediately will cause a cold. By mixing a teaspoonful of Perry Davis' PAIN-KILLER in half a glass of warm water or milk, the whole system will be heated and the danger of cold avoided. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. Price 25c. and 50c.
